

# Quick Installation Guide

## Wall Mounting (Optional)

1 Prepare the mounting accessories.

2 Attach each of the 4 wall hanging accessories to the track on the back of the box with screws.

3 Drill holes in the marked position on the wall. Then put the expansion screws into the wall and fixed the box using the screws.

## Pole Mounting

1 Prepare the mounting accessories.

2 Install the clips in the hoop fitting into the track.

3 Thread the cable tie into the hole in the clips, and finally adjust the cable tie according to the size of the pole.

## Remove Side Panel

- 1 Remove the screws holding the side panels on the inside of the Box.

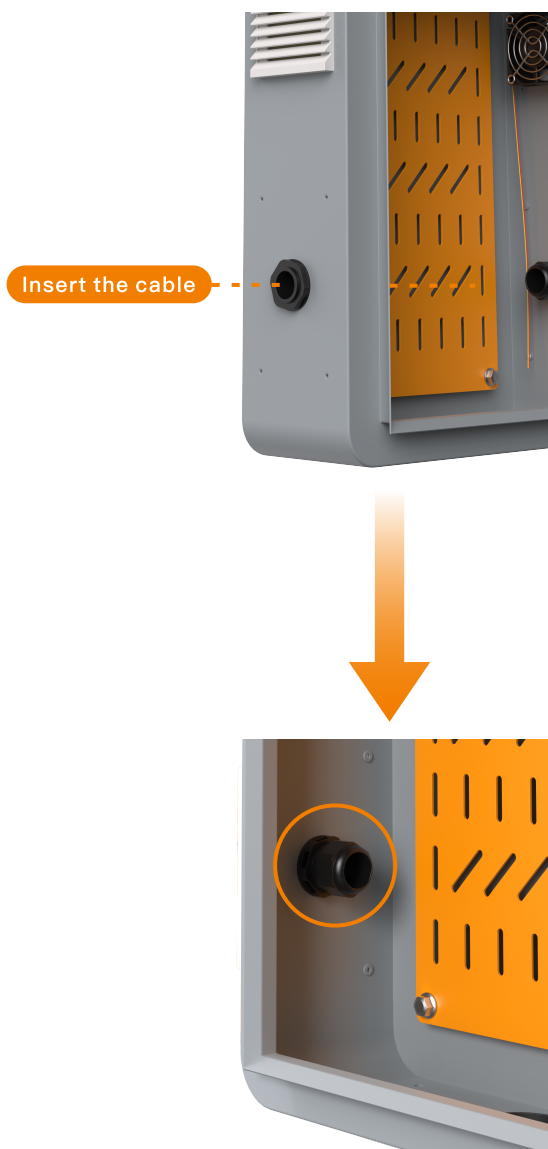

## DIN-Rail Installation

- 1 Remove the screws on the back plate of the box.

- 2 Insert the cable through the waterproof connector.

- 2 Place the nuts behind the holes and grooves of the back plate, then put the DIN-rail bracket on the surface of the back plate and fix the DIN-rail bracket by aligning the screws with the hole of the back plate. After the installation of the DIN-rail is completed, the back plate will be fixed with screw.
